PROFESSIONAL SUMMARY

Data Analyst with around 2 years of experience in analyzing data and working on real-world projects to drive business insights. Skilled in tools like Python, SQL, Advanced Excel, and Power BI for data cleaning, visualization, and reporting. Strong understanding of data analysis, problem-solving, and delivering accurate, data-driven solutions. and machine learning concepts.

EXPERIENCE

Data Analyst — AISECT Ltd.

Aug 2025 -Present

- Collected, cleaned, and analyzed large datasets to generate meaningful insights for business decision-making.
- Created interactive dashboards and reports using tools like Excel, SQL, and Power BI to track performance and trends.
- Performed data mining and data validation to ensure accuracy, consistency, and reliability of data.

Data Analyst (Project)— CETPA Infotech, Noida

May 2025 – Aug 2025

- Work with Data and Trained Student for Data Analyst skills including Advanced Excel, Python, MySQL, and Power BI with a strong focus on practical learning.
- Delivered hands-on training on data automation, Machine Learning, and AI basics, aligned with current industry requirements.
- Mentored students through real-time projects, problem-solving tasks, and interview preparation for IT and technical job roles.

Data Analyst — Jabra Connect, Noida Sec-2

jun 2024 – Mar 2025

- Worked on data cleaning and data validation to improve data quality. Used Excel, SQL, and Python to analyze datasets and find useful patterns.
- Used Lusha & Excel for data mining and lead generation, which improved lead quality by around 15%.

EDUCATION

Dr. A.P.J. Abdul Kalam Technical University (AKTU), Lucknow.
Masters of Computer Application (MCA)

Completed in 2024

Chaudhary Charan Singh University (CCSU), Meerut.
Bachelors of Computer Application (BCA)

Completed in 2021

Muslim Inter College Bulandshahr, (UP.Board)
12th

Completed in 2018

SKILLS

Technical - Python, SQL, Excel (Advanced), Power BI, Tableau, Pandas, NumPy, Statistics, ML basics, Jupyter Notebook, Google Sheets, Lusha

SoftSkills - Teamwork, Problem Solving, Good Communication, Analytical Thinking, Technical Training, Persentation

CERTIFICATIONS

- Python, Data Science and Machine Learning - Ducat, Noida Sec-63**

PROJECTS

NASSCOM Training Project — CETPA Infotech

- Delivered Data Analyst training under a NASSCOM-aligned program covering Advanced Excel, Python, MySQL, Power BI, Data Cleaning, and Data Visualization.
- Provided hands-on exposure to Machine Learning and AI fundamentals, automation, and real-world datasets for practical understanding.
- Guided students through end-to-end projects, SQL querying, dashboard creation, and job-oriented skill.

Brain Tumor Detection. (ML And DS)

- Developed a CNN model using Keras to classify MRI scans into tumor/no-tumor.
- Achieved 90% accuracy, optimized model using learning-rate tuning.
- Performed data cleaning, augmentation, and visualization using Python.
